

**SCOR Investment Partners reaches EUR 20 billion of asset under management driven by significant net inflows.**

SCOR Investment Partners, the SCOR Group's asset management company, is proud to announce that it has surpassed the milestone of EUR 20 billion of assets under management.

2023 provided a turning point for third-party activities with a significant acceleration of assets under management. This growth is the result of the strategic objectives pursued by SCOR Investment Partners, which offers specialized investment solutions to institutional clients, and is in line with the SCOR group's latest strategic plan, Forward 2026. As of end 2023, third-party assets under management reached almost EUR 7.4 billion driven by close to EUR 900 million net inflows from external investors.

Louis Bourrousse, Chief Executive Officer of SCOR Investment Partners, comments: *"We are thrilled of these results confirming that we are recognized by our clients. These results speak to the resilience and excellence that have driven SCOR Investment Partners for nearly 15 years as our teams leverage both an asymmetric risk culture and our sustainable investment expertise. We look to continue this strong positive momentum through 2024 with the launch of new investment propositions building on our established expertise, notably across our value-add real estate debt and infrastructure debt strategies, which are designed to finance the energy and digital transitions."*
